The chairman of the commission refused to sign the treaty, and the people of Lander succeeded, through their delegation, in having the treaty held up in Congress and another commission appointed. The Arapahoes, it appears, are now refusing to treat with this commission. The anxiety of Lander to obtain these lands is increased at this time because the Northwestern railroad will soon build a line from Casper, Wyo., to Ogden, Utah, and they want Lander taken in.

The Life of the Cenaus Office.

If the appropriation bill which is now being prepared by a House subcommittee is passed by Congress in its present form the work of the census office will be completed by December 31, 1893. Superintendent Porter is of the opinion that the work can be completed in that time. To carry the work through to the end Mr. Porter estimates that it will, take \$240,000, and yesterday when he was before the committee he asked for that amount. It is the intention of the committee to insert a clause in the bill providing that the census office cease to exist on the date mentioned above.
